ABOUT US

Where Conversation Creates Community

Since its origin in 2007, the City Club of Central Oregon has brought the community together in more than 100 forums, dialogs, lectures and debates to explore the most critical topics relating to the region. Its members include many of the most prominent and influential leaders in government, business, education and media.

We are a vibrant organization which sets the stage for important conversations featuring preeminent speakers on topics ranging from new technologies to livable cities, from art to politics. Through its many varied programs, City Club is improving the tenor of communication throughout the region, informing the public and inspiring civic engagement.

City Club of Central Oregon is a 501 (c) (3) organization sustained by sponsorships, membership fees and donations. Your support enables City Club to provide quality, non-partisan programs on topics of local, state, national, and international importance in an atmosphere of civil discourse.

The primary method we use to achieve this mission is by hosting monthly non-partisan forums relating to public issues that are of interest to Central Oregon residents. We attract speakers with expertise in both the private and public sectors. These speakers are asked to share their viewpoints on timely and important policy issues so that our members may learn and, in the process, become informed and involved community citizens. Questions from the membership play an integral part in each forum's design.

Mission

“to build a conscious and civic minded community through dialog, education and research that results in responsible civic engagement.”

VISION

Our vision is to form a sustainable organization that serves the Central Oregon region through the creation of civic dialog designed to increase citizenship and enhance our community.

INVOLVEMENT

City Club has standing committees made up of members interested in research, program development, membership and marketing. City Club strives to foster civic engagement and will pursue programs and activities that assist members in connecting with the community in responsible, meaningful ways.

OBJECTIVES

Conversation Creates Community

- Create a conscious community of citizens within our region, aware of our individual and collective impact
- Stimulate civic-mindedness and a will to pursue the greater community good
- Forge new cooperative relationships with the Central Oregon community
- Create dialog on subjects that matter to our region and our community
- Bring forth constructive dialog while honoring diverse perspectives
- Focus with other civic-minded organizations on building a community by design
- Arouse appreciation for the obligation of citizenship
- Stimulate informed community decision making and constructive action

*“If we are to change Central Oregon,
let it reflect the wisdom of our
intentions.”*
